EXPERIENCE

Full Stack Developer + Code Mentor

Coding House | January 2015 – present

- Develop full stack MEAN web applications, with a focus on creating deeply engaging UX.
- Work and live in an agile development environment. Use open source JavaScript libraries and innovative technologies to build rich independent and team projects.
- Mentor over 20 budding software engineers on all things JavaScript, front end architecture and back end design.

Programs Director

Washington State Chiropractic Association | July 2014 – September 2015

- Managed complex projects, with a focus on database administration and implementing new marketing technology. Responsible for a database migration of 4000+ member profiles.
- Designed, developed and executed print and digital marketing campaigns to 2200+ offices, four times per week. Managed overall communications strategy and become Project Manager of new media and technology initiatives.
- Drafted and executed policies for onboarding and utilizing new technologies and software. Responsible for creating staff manual, best practice guides and staff trainings on database and marketing software.

Floor Manager

Primo Grill | April 2008 – August 2015

- Effectively managed, trained and evaluated a staff of over 20.
- Held position that was responsible for daily operations, including inventory, financial reporting and human resources.
- Acquired extensive sales skills with a focus on excellent customer service.
